

**Montags-Diskussionsrunde (MoDiRu)**  
**Program**  
**Institute of Biometry and Clinical Epidemiology**

**Winter term 2019/20**

**Time:** Mondays 10:00 – 11:00

**Venue:** Invalidenstr. 80, Konferenzraum CCCC (Ebene 3)

<b>Date</b>	<b>Topic</b>
14.10.2019	Safety Analysen - Zählen von AEs oder doch mehr? → at Virchowweg 9, SR 2
21.10.2019	Dose-response analysis for spike at zero variables → Start at 11:00
28.10.2019	Misconceptions Project: Evaluation study at the IBiKE
11.11.2019	Guideline Good Epidemiological Practice
18.11.2019	Consequences of variable selection
25.11.2019	Classical test theory - Reliability and Cronbach's alpha
09.12.2019	Why Propensity Scores should not be used for Matching. Is G. King's polemic justified?
16.12.2019	Multiple changepoint analysis approaches for gene expression data
13.01.2020	The R package rpact for designing (adaptive) clinical trials
20.01.2020	Interpretable machine learning for time to event data
27.01.2020	Nonparametric methods for repeated measurements with missing data
10.02.2020	Approaches for real-time fMRI decoding using multivariate methods
